NEW COMMERCIAL ENERGY CALCULATOR Visit

www.coned.com/customercentral and use the calculators to estimate your energy use and to estimate the cost savings of energy efficient lighting.

Join our Direct Payment Plan. Just place an 'X' in the DPP enrollment box on your payment slip when you mail back your payment by check. We'll use your banking information to enroll you in the plan. Then, each month, after you've had time to review your bill, we will automatically deduct your Con Edison bill payment from your checking account. Join Now.

We have 212-581-1000 as your primary phone number and ADA.ESPARRA@SHERATON.COM as your email address. Need to update? Please go to conEd.com or call us.

The electric meter at your premises currently tracks demand and we show that usage on your bill. At this time, your account is not billed for the demand. If the demand exceeds 10 kW on two consecutive bills, we will reclassify the account under the appropriate demand rate and your bills will include a demand (kW) charge in addition to the energy (kWh) charge.

Visit www.coned.com/customercentral/demandbilling.asp, for more information.

YOUR DOLLAR FOR ENERGYSHARE CAN MAKE A DIFFERENCE.

If you pay the total amount of this bill and exactly \$1.00 more, that dollar will go into the EnergyShare fund sponsored by Con Edison. And, Con Edison matches each contribution. EnergyShare helps eligible residential customers who are struggling to pay their bills with one-time grants of up to \$200.

Coming Soon - we're making it easier to see your amount due and pay by date

Your electricity charges

These charges are for the electricity you used (supply) and getting that electricity to you (delivery). Rates are based on a 30 day period.

When your billing period is more or less than 30 days, we prorate your bill accordingly.

Electricity you used during this 31 day billing period from Feb 22, 2019 to Mar 25, 2019		
Rate: 002 EL2 Small Non-residential	Meter# 006024731	
We measure your electricity by how many kilowatt hours (kWh) you use. One kWh will light a 100 watt bulb for 10 hours. The meter multiplier is the factor by which the meter reading difference is multiplied to determine your usage. Demand or kW is the highest amount of electric usage in any half hour during the billing period.		
Mar 25, 2019 actual reading	9237	41.75
Feb 22, 2019 estimated reading	- 9203	- 41.5
Reading difference	34	0.25
Meter multiplier	X 36	X 36
Your electricity use	1,224kWh	9Kw
Utility-provided quantity	1,224kWh	9kw
