Per transaction processing fee applies • Per transaction limit: \$600 • Learn more: [mge.com/card](http://mge.com/card)

Interpreters available. Interpretes disponibles.

**Note:** MGE natural gas customers own and must maintain all natural gas lines between the natural gas meter and the point of use. Learn more: [mge.com/customergaspipes](http://mge.com/customergaspipes)

**About Your Bill**

**Administrative charge (gas)** - Covers MGE costs for purchasing and managing gas supplies. For customers buying their own gas, it covers the cost of monitoring and verifying use, additional billing costs, and agent relations.

**Degree-day information (heating season only)** - Reflects how cold it was during this billing period. The larger the number, the colder it was. You typically use more heating fuel in colder weather.

**Distribution service** - Covers the costs to operate and maintain our local delivery systems of gas pipes and/or electric wires.

**Electricity service** - Covers the costs to produce, purchase, and deliver electricity to our local distribution system.

**Grid connection and customer service charge** - Covers customer care, such as billing, record-keeping and information services, plus some of the costs of being connected to the local electricity grid, such as meters, poles and wires.

**Late payment charge** - Covers our administrative and carrying costs of late payments. Applied to any portion of the amount due that remains unpaid from your previous bill.

**Natural gas service** - Covers the cost of gas purchased from our suppliers and the delivery to our local distribution system.

**State low-income assistance fee** - Fee paid to the State of Wisconsin. Used to provide energy efficiency and utility bill payment assistance to low-income customers.

**System connection and customer service charge -**

Covers customer care, such as billing, record-keeping and information services, plus some of the costs of being connected to the local gas delivery system, such as meters, pipes and regulators.

**Therm (gas)** - A measure of the heat content of the gas consumed, determined by multiplying the CCF (volume) recorded by your meter by the therm (heat) factor.

**Budget Payment Plan Information**

**Budget Payment Plan** - A payment program that spreads your heating and cooling costs more evenly over an entire year. Your budget amount is reviewed and may be adjusted every six months. This program is available at no cost to all residential customers.

**Settlement Balance** - This amount is your account balance. If you want to end the Budget Payment Plan, this is the amount you would owe. If it is a credit, this is the amount we would owe you.

**Settlement Month** - This is the month your budget year ends. During this month, you will either be billed or credited for the difference between what you paid and what you actually used during your budget year. The next month you will begin your new budget year.

**Utility Service Used** - This is the actual cost of your utility service used since the beginning of your budget year.

**Total Budget Amount Billed** - This is the total budget amount billed for your current budget year. If you started the current budget year with a balance (debit or credit), it is included in this amount.
